

Sample Message to send to members of the Fairfax County Board of Supervisors
(E-mail or Snail mail is fine)

Dear Mr./Ms. or Supervisor _____:

As a Fairfax County (or name your specific District) resident and voter, I am writing to let you know that the health care needs of Fairfax County's children are important to me.

All jurisdictions are challenged to meet competing priorities with limited funds. I am a supporter of the Medical Care for Children Partnership, which helps Fairfax meet its obligation to help children in struggling families attain health care coverage. MCCP leverages the county's investment in children's medical needs by garnering financial and professional support from the medical and business communities. Without the county's investment, doctors, pharmacists, business leaders and citizens alike would not risk the same level of engagement in the crisis that faces children's health.

I applaud Fairfax County's strategic approach to solving a community challenge and I hope you will continue to support the County's wise investment in the Medical Care for Children Partnership.

Sincerely,

(Name)
Children's Health Advocate
